

## IRB Cooperative Research Verification

The revised Common Rule [45 CFR 46.115(b)] allows for U.S. institutions engaged in cooperative research to rely upon approval from a single IRB. Each institution is responsible for safeguarding the rights and welfare of human subjects and for complying with policy. One institution will be responsible for submission to appropriate IRB and maintenance of IRB records for the cooperative research.

If you are engaged in a cooperative research project that has obtained IRB permission from another institution's IRB, you are required to submit this form in addition to the cover sheet only to the MSUM IRB via IRBNet.
